# THE Duallist

DRUM PEDAL

double pedal - single foot!

The Duallist is a unique and ingenious pedal designed to give you full control of all of your drumkit all of the time.

Whatever your style The Duallist allows you to create exciting double bass drum rhythms and allows you complete independence to play the hi-hat pedal at the same time.

The Duallist is also an exceptional single pedal. Press the left *Speedswitch* its a single pedal. Press the right *Speedswitch* its a double pedal. The *Speedswitch* levers are conveniently positioned left and right of the heel, making it easy to instantly select doubles or singles without affecting performance.

The Duallist features four way beaters which have felt, wood and two differently shaped plastic playing surfaces and allows infinite adjustment of beater angles, strap lengths and spring tensions independently for both beaters.

fully adjustable to suit every drummer!

## The Duallist is easy to play!

- On the down-stroke the right beater strikes
- On the up-stroke the left beater strikes

No heel toe action, no gimmicks. It really is as simple as that.

By operating two beaters with just one footboard The Duallist opens up a whole new world of creative drumming opportunities.

The Duallist features a unique one piece sliding hoop clamp which can adjust the distance between the pedal and the bass drum or percussion instrument.

Constructed from super tough Dupont Zytel® Engineering Polymer, The Duallist is lightweight and able to handle the heaviest performance. The Duallist can be played easily whilst standing up, making it possible to add a new dimension to percussion rhythms.

The Duallist Pedal is the result of years of design, development and testing. It was designed with input from professional drummers and developed into a robust product with the help of Dupont.

Produced by the MacRobert Corporation, The Duallist has won awards for its design and innovation.

EXPERIENCE THE FREEDOM OF THE DUALLIST

"Reclaiming controllable hi-hat while playing 16ths on the kit is a huge victory for drummers."  
Rich Watson of Modern Drummer Magazine

"There's no denying that it is a revolutionary new addition to every drummer's arsenal. Utterly unique, very well made."
